WHAT ARE THE COMMON CORE STATE STANDARDS (CCSS)?

- The Common Core State Standards initiative was a state-led effort to establish a shared set of clear academic standards for English Language arts and Mathematics that states may voluntarily adopt. The standards have been created based on the best available evidence and the highest state standards across the country.
- The standards were created by a group of teachers, content experts, school administrators, and parents.
- The goal of the standards is to ensure that students graduating from high school are prepared to go to college or enter the workforce and that parents, teachers, and students have a clear understanding of what is expected from them.
- The standards are also benchmarked to international standards to guarantee that students are competitive in the emerging global marketplace.
