1. READING ENGAGEMENT

(If the student has recently answered these questions, skip this section.)

T: What kinds of books do you like to read? ____________________________________________

T: Tell me about one of your favorite books. ______________________________________________

T: Whom do you read with at home? ___________________________________________________

2. ORAL READING FLUENCY

INTRODUCTION AND PREVIEW

T: This book is called Baby Birds. It tells how baby robins hatch and how their parents take care of them. Tell me what you know about baby birds.

Student’s response reveals □ little, □ some, or □ much background knowledge.

T: Now, look at each picture, and tell me what you think you’ll learn about baby birds.

Note the student’s use of connecting words (e.g., and, then, but) and vocabulary relevant to the text. You may use general prompts, such as “What else?” or “Turn the page,” but do not ask specific questions. Tally the number of times you prompt.

RECORD OF ORAL READING

Record the student’s oral reading behaviors. Note the student’s fluency (expression and phrasing). Be sure to time the student’s reading.

T: Baby Birds. Now, read to find out what the author says about baby robins and how their parents take care of them.

**ORAL READING WORDS PER MINUTE, PERCENT OF ACCURACY**
Use the student’s oral reading time to circle the WPM range.

- If the student’s score falls in a shaded area for either WPM or Accuracy, STOP! Reassess with a lower-level text.
- If the student is reading below the grade-level benchmark, administer *DRA Word Analysis*, beginning with Task 16, at another time.
3. COMPREHENSION

RETELLING
As the student retells, underline and record on the Overview the information included in the student’s retelling. Please note the student does not need to use the exact words.

T: Close the book before the retelling, and then say: Start at the beginning, and tell me what the author said about baby birds and how their parents take care of them.

Overview
1. Birds make nests in the spring. Robins make round nests from mud, twigs, leaves, and grass.

2. Birds lay eggs. Mother robins lay one egg each day until they have about four eggs. The eggs are light blue.

3. Birds keep their eggs warm. Mother robin keeps her eggs warm by sitting on the nest for about 13 days. She turns the eggs every day.

4. Baby birds then hatch from the eggs. Baby robins use their beaks to crack open the eggshells.

5. The babies cannot fly. They don’t have feathers, and they cannot see.

6. Mother and father birds feed the babies. Robins feed their babies worms and bugs for about 35 meals a day.

8. In about 14 days, baby robins leave the nest and learn to fly.

If necessary, use one or more of the following prompts to gain further information. Place a checkmark by a prompt each time it is used.

☐ Tell me more.
☐ Tell me what baby birds are like when they first hatch.
☐ Tell me how mother and father birds take care of their babies.

USING NONFICTION TEXT FEATURES
Record the student’s responses to the prompts and questions below.

T: Turn to the timeline on pages 14–15. Say: Use the timeline, and tell me what happens before the eggs are laid in the nest.

T: What happens after the eggs are laid in the nest?

MAKING CONNECTIONS
T: What did this book make you think of? or What connections did you make while reading this book?

Copy each substitution to help analyze the student’s attention to visual information.

e.g., next (substitution)

Oral Reading Rate: (Optional) Use the formula below to determine the student’s exact oral reading rate. Convert the student’s reading time to all seconds.

\[
\frac{177 \text{ (words)}}{\text{____ total seconds}} = \frac{\text{____ WPS \times 60}}{\text{____ WPM}}
\]

**DRA2 Continuum**

- Circle the descriptors that best describe the student’s reading behaviors and responses.
  1. Use your daily classroom observations and the student’s responses to the Reading Engagement questions to select statements that best describe the student’s level of Reading Engagement.
  2. Use your recorded observations from this assessment to select the statements that best describe the student’s Oral Reading Fluency and Comprehension.
- Add the circled numbers to obtain a total score for each section.
- Record the total scores at the top of page 1.

**Note:** If the Comprehension score is less than 19, administer DRA2 with a lower-level text.

Choose three to five teaching/learning activities on the DRA2 Focus for Instruction on the next page.
DRA2 FOCUS FOR INSTRUCTION FOR TRANSITIONAL READERS

**READING ENGAGEMENT**

*Book Selection*
- Teach student strategies to select “just right” texts for independent reading
- Introduce student to reading materials from a variety of genres
- Model and discuss why readers have favorite books and authors

*Sustained Reading*
- Model and support the use of sustained reading time
- Develop clear expectations for amount of independent reading
- Provide opportunities for buddy reading
- Create structures and routines to support reading at home

**ORAL READING FLUENCY**

*Expression and Phrasing*
- Model and teach how to emphasize key words and phrases when reading informational texts
- Model and support reading in longer, meaningful phrases with appropriate expression
- Model and support how to attend to punctuation
- Have student practice appropriate phrasing and expression with familiar texts

*Rate*
- Provide materials and time for repeated reading to increase reading rate
- Teach student to read lower level and/or familiar texts at an appropriate rate

*Accuracy: Word Analysis*
- Support and reinforce self-corrections of miscues
- Model and support how to take words apart (e.g., onset and rime, syllables) to problem-solve unknown words
- Teach how to use word chunks and analogies to problem-solve unknown words
- Provide spelling activities and word sorts to help student recognize patterns in words

**COMPREHENSION**

*Previewing*
- Model and support previewing informational books during read-aloud and shared reading experiences
- Model and teach student how to activate relevant background knowledge before reading an informational text

*Retelling*
- Model and teach how to retell the ideas and facts presented in an informational text
- Model and teach how to identify important information (key ideas and facts) to include in a retelling
- Support retelling information in a logical order
- Model and support using key vocabulary/language from the text in a retelling
- Model and support going back into the text for specific information

*Using Nonfiction Text Features*
- Teach student how to read information presented graphically
- Teach student how to use graphic organizers to keep track and present facts and ideas

*Making Connections*
- Model and teach how to make text-to-self connections
- Model and teach how to make text-to-text connections
